SUMMARY

I'm a Frontend developer passionate about building responsive and user-friendly applications. Skilled at translating figma and UI mockups into functional, pixel-perfect interfaces using React, Next.js, and Tailwind CSS, with a strong foundation in HTML, CSS, JavaScript, and TypeScript. Experienced with version control Git/GitHub and eager to contribute to real-world projects while growing as a developer.

SKILLS

- Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript
- Frameworks/Libraries: React, Next.js, Tailwind CSS
- Tools: Git, GitHub, VS Code, Vercel.

PROJECTS

Audiophile E-commerce Website: React, Tailwind, React Hook, Vercel

I developed a multi-page e-commerce platform for audio products with product listings, detailed item pages, and a responsive shopping cart. I also Implements clean layouts from Figma designs, ensuring a mobile-first experience and seamless navigation.

Weather App: TypeScript, Next.js, Tailwind, Open-Meteo API, Vercel

I integrated external API to build a responsive weather app with search functionality, unit conversion, and detailed forecasts.

Digital Banking Landing Page – HTML, CSS, JavaScript, Vercel

I built a responsive landing page for a digital banking service, translating Figma designs into clean, accessible, and mobile-first layouts. I focused on performance, reusability, and modern styling to showcase key product features.

EDUCATION

Bachelor of Science (B.Sc.), Computer Science

Ebonyi State University — Expected November 2025

Relevant coursework: Web Development, Computer Science
